Application/Control Number: 09/940539

Art Unit: 2832

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-27, drawn to an electrical apparatus, classified in class 338, subclass 20.

II. Claims 28-54, drawn to methods of making an electrical apparatus, classified in

class 29, subclass 610.1.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are

distinct if either or both of the following can be shown: (1) that the process as claimed can be

used to make other and materially different product or (2) that the product as claimed can be

made by another and materially different process (MPEP § 806.05(f)). In the instant case the

product can be made by a materially different process such as by impregnating the resin with fiber

after applying the layer.

Because these inventions are distinct for the reasons given above and have acquired a

separate status in the art as shown by their different classification, restriction for examination

purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required

for Group I is not required for Group II, restriction for examination purposes as indicated is

proper.

Applicant is advised that the reply to this requirement to be complete must include an

election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner 3.

should be directed to Karl Easthom whose telephone number is (703)308-3306. The examiner

can normally be reached on M-Th. If attempts to reach the examiner by telephone are

unsuccessful, the examiner's supervisor, Elvin Enad, can be reached on (703)308-7619. The fax

phone number for the organization where this application or proceeding is assigned is (703)308-

7722. Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the receptionist whose telephone number is 703-308-0956.
